FAKE PENTA-GOON ORANGE JUICE

BEWARE!

FAKE PENTA-GOON ORANGE JUICE

A container at the Mombassa port has been impounded, documentation shows it originates from America. The contents are an orange juice blend from DICK MORRIS & co. packed in 500ml and 30ml sachets. (see photo on the left). Further investigation also reveal that a dubious company with local registration under the name PENTA-GOONS had subcontracted the American outfit to package and ship the fake consignment.

Non of the Penta-goan official was available for comment as they were busy marketing another poor performing orange juice called UGATUZI.... errr sorry... UGAJIMBO.

Reliable lab-results state that Penta-goan Orange juice will:

- a) retard speech and thinking
- b) cause rhetoric & euphoric behaviour
- c) make the consumer engage in idle talk (DOMO)
- d) create the illusion of an utopic country
